

<2024-Summer Semester Maeji3 Dormitory Non-Operation Guide>

I would like to inform you that the dormitory will proceed with the following in the summer semester of 2024.

Maeji3 will not be open during the 2024 summer vacation.

Regarding complaints (cleanliness, bug appearance, etc.) that have been continuously received since last year, Maeji 3 will conduct disinfection and insecticidal work on daily pests and inspections of various facilities separately from monthly quarantine work, So we ask for your cooperation even if it is inconvenient.

We know the inconvenience that students who already live in Maeji 3 and want to live in Maeji 3 even in the summer semester have to move to another dormitory, but I ask for your understanding that we have decided to create a cleaner environment.

we will always try to keep the students in a comfortable and safe environment. Thank you for your cooperation.
