

<Guidance on Continuing Resident Room Movement for the 2024-Summer Semester>

Hello, this is the Housing Office,

This is a guide for all student before applying for the dormitory for the upcoming 2024 summer semester.

For a long time, including the regular semester, students was continue to live without changing their rooms.

For this reason, the state of the entire room is aging (cleanliness, bug appearance), and the furniture is very damaged. As a result, there are many complaints about the cleanliness of the room.

Therefore, in the summer semester of 2024, **we will not operate Maeji3 Dormitory to solve facility maintenance and quarantine problems, but will only operate 'Cheongyeon'**

In addition, this summer semester, we would like to inform you that residents who continue to live in Cheongyeon should also move from the existing room to another room.

We know the inconvenience of students who want to live in an existing room without moving to a room, but please understand that it was a difficult decision for a more pleasant and safe environment.

Please be careful not to cause problems such as leaving your luggage in the existing room even after the date of leaving the room. To move your room, you can keep it in the luggage storage area and move to the newly assigned room when the cleaning is completed on the same day, and continuing residents of Maeji3 can move to Cheongyeon from June 24 (Mon).

We hope that anyone entering the dormitory for the summer semester of 2024 will have no disruption in preparing to enter the dormitory, such as handling luggage and planning to go out for personal reasons (1st semester 2024).

We would like to inform you once again that the dormitory is not responsible for the problem caused by the information.

The detailed notice of application for joining the dormitory for the summer semester of 2024 will be announced on the website at the end of May.
